## Troop Booth Pickup Orders

The ability for customers to purchase from your troop can happen at a booth, or virtually using Digital Cookie. One great feature your troop can offer customers is the option to pre-pay for an order for pickup at a cookie booth your troop has scheduled. Let customers know that if they choose that option, you are sure to have the cookies they want and it speeds up their cookie buying process-no waiting outside in the cold and rain to make an order.

To activate that for your troop customers, there are just a few steps to set up that option using the cookie booths you have signed up for in eBudde.

## Setup

**Step 1:** Start by navigating to the “Booth Pick Up” tab on your troop dashboard.

Start by selecting an existing cookie booth from your list by clicking on “Add Pick-Up Option”

**Step 2:** Once you have selected a booth to add a pickup option for customers to, you will need to enter a few details about when the customer will see that pickup location as an option.

**NOTE!** Consider ending that option 12- 24 hours before the booth sale will begin so you have time to review and approve all orders. If you have concerns about inventory for pickup orders, consider ending the option even earlier so you can secure the necessary product for the orders.

**Step 3:** If you need to edit or delete your pickup locations, you can view your list of pickup locations and edit or delete them.

**Important!** If you cancel a booth in eBudde, you must delete the booth from here so customers can no longer select it as a pick-up option. Check your orders tab for any orders that were scheduled to be picked up and make alternate arrangements or cancel and refund them

## Customer View
