

The GSGC Alum Network's mission is to actively reconnect a diverse network of Girl Scout alums by providing a range of opportunities that foster a lifetime of leadership, sisterhood and engagement within their community.

Our Pillars

Advocacy

We will work to support the Girl Scouts of the USA's Legislative Agenda within local communities and to identify opportunities for civic engagement among members of Gateway Council. We will also partner with the council to support the annual Girl Scouts Day at the Capitol.

Community Engagement

We will create volunteer opportunities council-wide to help give back to the 35 counties Gateway Council serves. We will support Girl Scouts of Gateway Council through a Girl Scouts Service Day, partnering with troops on their volunteer events and working with local businesses for Girl Scouts Give Back nights.

Professional Development

We will support Girl Scouts of the USA's Fair Play, Equal Pay initiative by preparing girls and alum to reach their goals through developing mentorship opportunities, hosting online soft-skills workshops and webinars, and eventually holding in-person networking series.

Diversity & Re-engagement

We will strive for a diverse network that represents all GSGC alum. We will engage alum through fun and engaging social activities and through an annual Alum Weekend Retreat. Social activities will include happy hours, mother-daughter Girl Scout days and partnering with the Community Engagement Committee on Girl Scouts Give Back events.
