

It's a Bugs Life!

For **Brownies**: An activity to help you earn Bugs badge.

Step One: Learn About Bugs

Did you know that the word “bug” refers to a specific kind of insect?

Learn more about bugs by watching this video: <https://vimeo.com/46665373>

Step Two: Explore

Go outside either in your yard, or in your neighborhood, and see what bugs you can find, and take some pictures.

If you don't know what kind of bugs you have found, you can take a look at some of the bugs in the University of Florida's Insect ID lab website:

<http://entnemdept.ufl.edu/insectid/index.html>.

The section on “Species Found in Florida Yards” is a good place to start:

<http://entnemdept.ufl.edu/insectid/Yard.html>

Step Three: Make a Bug Poster

Now that you've identified your bug, make a poster about it to share what you've learned. Include a drawing or picture of your bug, its name, and three cool facts!
